

VICNET

WALLET WHITEPAPER 1.0

OVERVIEW

ABOUT VICNET WALLET

VICNET Wallet is a multi-utility decentralized wallet (Defi Wallet) application that makes storing and managing crypto assets easy for users, giving them full control over their assets containing security characters. Furthermore, the Vicnet wallet allows users to connect DApps and the wallet's built-in utilities help users experiment and earn money in the Defi world.

VALUE PROPOSITION

| Security & Privacy

Security is a fundamental requirement for asset management. Only their owners can access the wallets. Vicnet Wallet evolves daily to protect users' assets from external malicious attacks and does not collect any personal information about its users.

| Multipurpose & Ease

The multiple utility improves the user experience when using favorite decentralized applications (DApps), entertainment and monetization directly in Vicnet Wallet without switching to another application in the most user-friendly way.

for

OUR MISSION

Vicnet Wallet's mission is to provide users with simple, convenient and highly secure solutions in the world of cryptocurrencies.

PRODUCT

VICNET Wallet is designed to be the next generation of decentralized multi-service wallet applications. And designed to provide users with an excellent experience, with a simple, intuitive and easy-to-use interface. Utilities designed to provide users with everything they need.

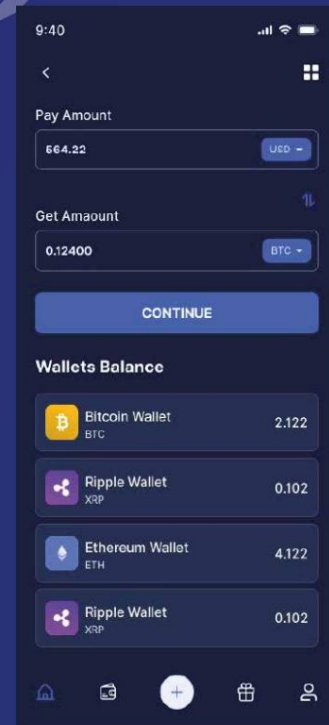

- Storing assets using private keys guarantees a high level of security and reputation.
- Easy accessibility and anonymity for transactions anytime, anywhere.
- Trade over one million tokens on fourteen leading blockchains

EXPLORE APPLICATIONS DIGITAL

Discover the most popular DApps without difficulty using the Vicnet wallet.

Easily connect, trade, farm and mine on major DeFi protocols

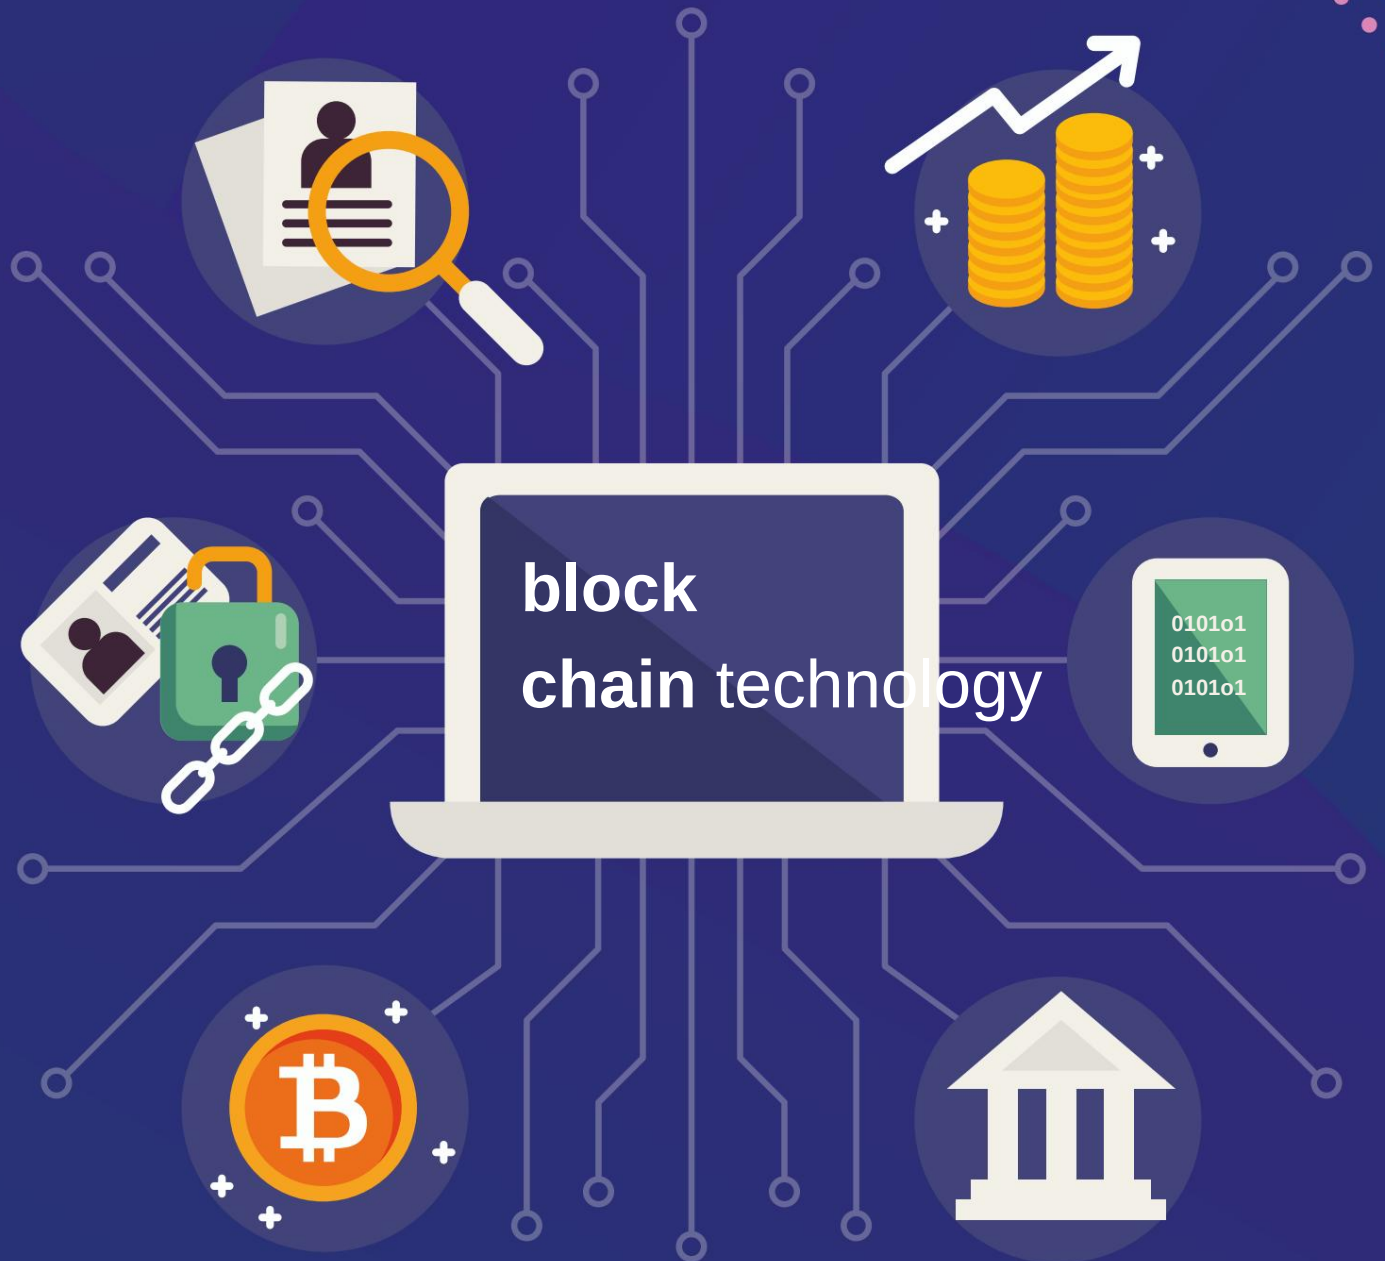

SEND

Send cryptocurrencies with the confirmation speed and network fees that the user prefers.

It provides users with real-time gas price and transaction speed updates.

MULTISERVICES

MULTISERVICES

NEWS

Every day, users receive market news and information about events from Vicnet Wallet. Vicnet's accurate information enables users to seize opportunities, make prudent investment decisions and produce excellent results quickly.

EVENT

Vicnet Events allows users to have fun and earn great rewards. In the future, Vicnet will integrate Learn to Earn into the event.

This utility allows project developers to share educational information about their projects, while the community receives rewards from project developers. project development.

REPLANNING

Even while sleeping, users can passively earn money. The bets make activists' assets profitable with interest rates of up to 39 percent annual percentage rate (APR). Depending on their individual investment preferences, users can view, search and select various APY participation programs.

In the future, project owners will be able to create staking programs in the Vicnet wallet to use external resources to participate in the operation of the network through Nodes and distribute rewards to staking users.

LAUNCHING PLATFORM

Vicnet Launchpad is the bridge to the most powerful outreach projects. Prospective project developers can create their own token sale rounds on the Agra wallet to raise capital and increase the project's reach among Vicnet users.

Vicnet Launchpad is more than just a token sale platform. It is also a complete project consulting service, drawing on the knowledge and experience of the Vicnet team. By participating in Vicnet Launchpad, projects can focus their efforts on what matters most: product development and usability improvement.

Vicnet Launchpad creates a safe environment to support users as investors get early access to great and potential new projects and purchase tokens at a lower price when they are launched, providing high returns to investors.

MULTISERVICES

AIRDROP

Vicnet Airdrop is a platform for developers to advertise their projects on the Vicnet community.

By performing tasks that contribute to the promotion of a project, Rabbit users are eligible to receive free tokens or non-fungible tokens (NFT).

MARKET

Vicnet MarketPlace is a platform that helps in launching and selling INO rounds.

Individual users can also list their own NFTS and trade, buy, sell or trade their NFT collections.

Vicnet MarketPlace also helps users buy the NFTs they want at the lowest price, with the fastest and most secure transaction.

MARKET STRATEGY

Vicnet provides users with daily cryptocurrency market strategies from leading experts. This feature helps users accurately identify market trends, thereby improving their decision-making efficiency.

REFERRAL PROGRAM

Vicnet offers users free rewards for sharing their usefulness with the community.

SECURITY

Security is and always will be Vicnet's top priority.

We believe that data security and privacy are essential to establishing user trust.

We invest heavily in ongoing security and privacy training for all employees to strengthen our security posture. Your Vicnet Wallet is locally encrypted on your device and biometrically protected.

To test our core Blockchain systems, Vicnet has also engaged internationally renowned security auditing and consulting companies such as SOLIDProof.

Vicnet Bug Bounty: Vicnet recognizes the vital role security researchers play in keeping our community safe. Through our external bug bounty program on the leading platform, Vicnet Bug Bounty, we encourage responsible disclosure of security vulnerabilities.
